ATLAS OF THE MASSACHUSETTS DEPARTMENT OF MENTAL HEALTH
1970

These maps show graphically the type and location of facilities and programs of your Department of Mental Health. Decades of effort by countless citizens and employees, and generous backing by the Executive and Legislative branches of the Commonwealth have made these services possible. Collaboration with medical schools and many institutions of learning have helped set quality standards for patient care and treatment, encouraged research, and facilitated many fine training programs.

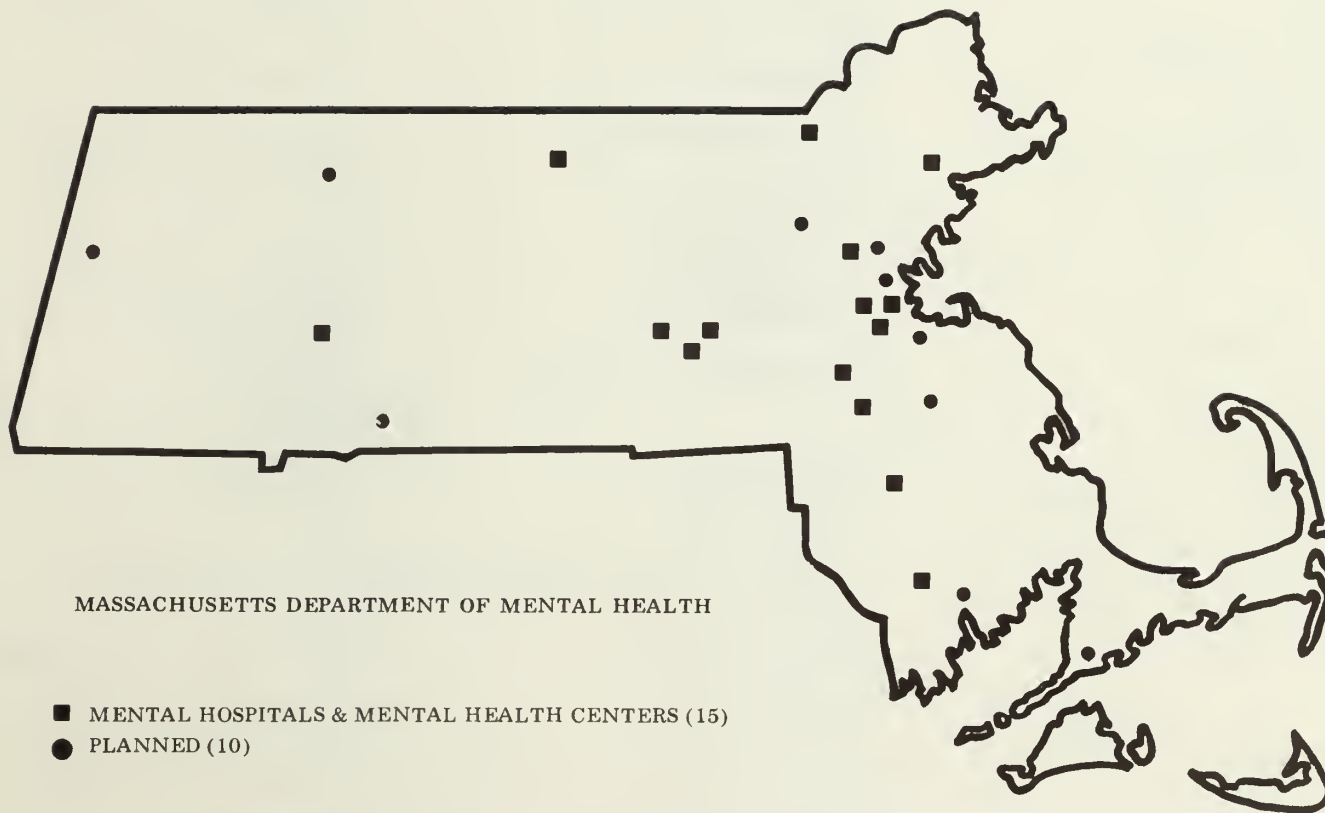

This very substantial network has each year helped many, many thousands of patients and families in need; and we may be proud indeed of what so many dedicated workers are doing for our citizens each day.

However, there is much, much more to be done: extend services to areas of neglect, mobilize all possible community agencies and caregivers on behalf of our patients, upgrade the level of care and treatment everywhere, introduce innovative programs that have proven merit, and continue vigorous research into the causes and treatment of all types of mental disorder and retardation.

Morton Greenblatt M.D.
Commissioner

**THE MASSACHUSETTS DEPARTMENT OF MENTAL HEALTH
ATLAS 1970**

Publication of this book supported in part by a grant from the U. S. Department of Health, Education, and Welfare for the Massachusetts Mental Health Plan, Fiscal Year 1970, under Section 314(d) of the Public Health Service Act.
